

# THE DELTA VISTA

PRODUCT SHEET

## **Vista: a new standard for high-end temporary structures**

The Vista by De Boer product line is a range of high quality products fitted with a dramatic facade based on horizontally placed panoramic panels. This new standard for high-end temporary structures will surely add value to your event.

## **Stylish flexibility**

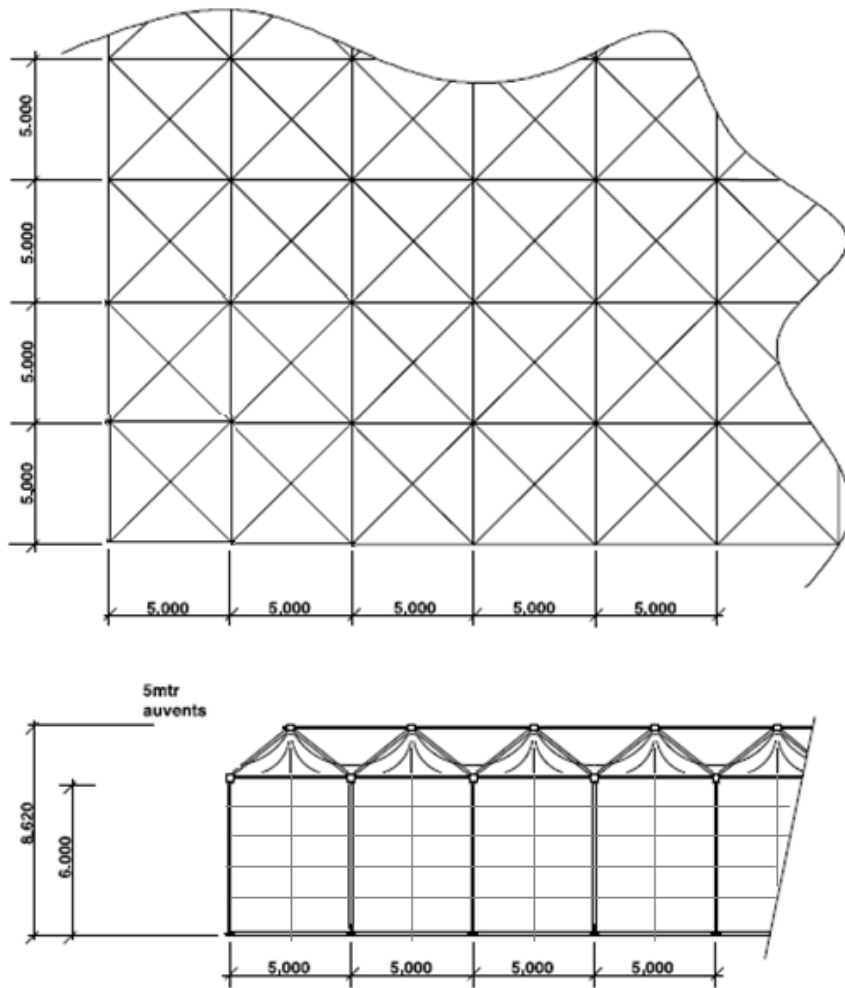

The Delta Vista combines great flexibility and versatility with the stylish Vista façade in the best possible way. Like the regular Delta structure, the Vista version offers a gable widths of up to 65 metres, a free span of up to 30 metres and a standard internal height of no less than 6 metres. This provides you with more than sufficient space for any kind of use.

## **Enhanced appeal**

The Delta Vista is fitted with the well-known suspended cassette floor, deluxe glass and blind panels and push bar doors. The tautness of the engineered roof system almost eliminates all wind chatter from the roof sails further enhancing its appeal for conferences, exhibitions and product launches.
